# SEASONS GREETINGS

2021

**God has already scripted our life story, but we tend to script our own story for our lives, and the two don't always match. Even though that can be confusing and even frustrating, we ultimately know His story is the very best!**

Merry Christmas to you and yours!  
We pray God's presence is felt in your holidays this year like never before!

We are on our own personal journey to go after God with a new purpose - not just to get answers for what the heck we're supposed to be doing in life. We've changed the focus of our pursuit of Him to just be that - a passionate pursuit of Him. We long to live so close to the Father's heart that we won't miss His instructions when He's ready to give them.

There's one question we get asked over and over and over again. "Will you ever plant a church again?" The answer is YES, we've become certain that God has that in our future. We also know that we are in an incubating season, and He's preparing us personally, changing paradigms, and revealing to us little by little how this next mission will be different than anything we've done before. The world is changing rapidly, and we want to be in step with how the Spirit wishes to move in the times we're facing. We are wide open for Him to use us however He wishes.

### **JOSHUA, 18**

After recovering from knee injury, Josh is ready to start his first baseball season at Trevecca Nazarene University in Nashville. He finished his first semester with a 3.5GPA. He will spend his summer playing for the Boone Bigfoots in NC.

### **LUKE, 16**

Luke is still the life of the party! He's a Junior at Maryville High School, and is about to play church-league basketball with several friends and Dad as coach.

### **NOAH, 14**

Noah is a Freshman at Maryville High School and on the high school baseball team. He managed to get very good grades his first semester of high school, even while having daily baseball commitments. He will play travel ball this summer again. He attended FCA camp this summer, where God radically touched his heart.

### **NATHAN, 13**

Nathan is a homeschooled 8th grader. He's the brains of the family. He enjoys engineering and creating/building things.

### **ALEC & HANNAH GLOVER**

Hannah & Alec have been married 1.5 yrs now, and just bought their first home in Maryville. It's adorable! Alec is managing Honeybee Coffee's several locations. Hannah is still going to Johnson University full time as a Media & Communications Major, with

a minor in Worship Arts. She has her last day as Asst Manager of American Eagle on Dec 30, and then she plans to develop her own pursuits while also working for Nana & Papa's real estate brokerage. She looks forward to this next season of life!

## JAMES

While this year may have looked differently than James thought it would, it has bore fruit in ways he didn't foresee. The Minister's Friend has reached countless pastors across the nation. To be able to support ministers in this confusing season in our nation and in the church, we can't decide who's more blessed - James or the pastors. He also launched a podcast called Authentic Life, and it has been touching hearts like crazy. This year of ministry has been slower-paced than what we're used to, and we believe that has been God-ordained. It has allowed James to be much more present for our boys in a season when they've really needed their dad.

## CHRIS

This has been a "come away with Me" year for me and God. I have spent lots of time in solitude while he's worked in my heart, and it's been precious and rich. Super excited that my parents and brothers' family moved to East Tennessee this year! In January of this year, I went to work for Welcome Home Realty Group, which is owned by my father-in-law. I am serving as an Office Manager, as well as a Transaction Coordinator. I'm also just about finished with schooling to get my real estate license. I never foresaw myself in real estate, but God has led me here for this time, and I trust His plan.

## HOW YOU CAN PRAY FOR THE SEILERS IN 2022

- God's revelation of the when, where, & how of planting a church
- God's direction for our home, which has been the money pit. Do we stay or do we go? UGH!
- Provision for a much-needed, new family vehicle
- New monthly supporters
- Protection around Josh's knee this spring season

**We hope your holidays are filled with  
laughter & love.**
